Refuse Collection Strategy

Property Address: 32 St Marys Butts Reading RG1 2LS

Application Reference: 231229

In advance of bin collection days, residents will remove the bins from the designated storage area internally, and wheel them out of the building via the main access door at the rear of the building. Residents will then wheel the bins to a designated location just outside the entrance door to the flats as indicated on the google street view picture below. The bins will be collected and emptied by Waste Collection Officers on designated collection days. The bins will be wheeled to this designated collection point no earlier than 7pm the night before collection day and no later than 6am on the day of collection.

Please see annotated google street view images below, which show the route which residents will follow to wheel the bins from the internal storage area to the proposed designated storage collection point just outside the main entrance of the building.

Annotated google street view image showing proposed route to wheel bin to the street site and location along the streetside for bin collection.

We trust that this statement and its supporting documents provides you with the information you require to discharge these conditions. If you have any questions on the above or require further details on any of the information provided, please do not hesitate to contact us at info@eatownplanning.co.uk or 0330 221 0449.
