

Formal Objection to Application # PL/24/0998 – # 5 Stoneham Close, Tilehurst, RG30 4HB

To the Planning Committee,

I am writing to submit my objection to the proposed development at Stoneham Close, as it will have detrimental effects on both safety and the environment. Key issues include:

1. **Increased Traffic Risk:** The addition of multiple vehicles entering and exiting on a blind corner poses serious hazards to both drivers and pedestrians, especially near King's Academy Prospect School.
2. **Parking Congestion:** The proposed single parking space per house will not accommodate the number of residents and guests, leading to serious parking issues on the road.
3. **Privacy Issues:** The new development will overlook several nearby homes, violating the privacy of those living nearby.
4. **Proximity to Electrical Substation:** The proximity to an electrical substation raises concerns about potential health risks and noise pollution.

I urge you to take these issues seriously and deny this planning application.

Thank you.

Best regards,
