

Burger Den aims to minimise their impact on the environment, promoting good waste management practice.

The policy sets out their approach to managing their environmental impact from waste. Burger Den aim's for the continual improvement in mitigating direct environmental impact. Reducing use of natural resources and preventing pollution.

Burger Den will:

Ensure compliance with all environmental legislation applicable to their business and operations.

Ensure that any waste created through the business will be disposed of in a safe and environmentally friendly manner.

Staff will be instructed to check hourly during busy times, and once in the morning (opening) afternoon and evening when (closing) around the premises to ensure that any litter left outside of the business (including visible rubbish in gutters and footpath surrounding the site) will be collected and disposed of in our waste bins.

A cleaning log will be kept by staff, noting times and initial of staff member conducting cleaning activities, this will be made available to Council officers on request.

Ensure that waste bins are provided for customers close to the exit doors and made visible with clear signage so that customers are encouraged to dispose of their waste in store rather than take it with them. Burger Den stands firm in keeping areas clean for a safe environment for members of staff and the public.

Encourage recycling with stickers and a separate recycling bin within store.

Bung Plugs will be fitted in the bins to avoid build up, avoid rats, and enable effective cleaning of bins:

Burger Den will store commercial waste bins to the rear as shown on the plans below.
Securely locked with wheelie bin keys (kept locked at all times):

1 x 1100L general waste bin

1 x 1100L recycling bin (1100L)

1 240L food (compostable) waste bin

The trade waste and recycling will be collected by Collards, a private waste collection service on Mondays and Fridays. Food waste will be collected by Biffa every Monday. All waste will be collected on site within the car park.

With increase of waste being consistently filled, an increased frequency of collection will be required.

In addition, specialty waste, such as oil receptacles will be disposed of weekly. Any waste oil will be collected by CaterOils ,and on every collection a waste transfer notice would be provided.

Waste Bins will be kept in the rear car park

- Trade Waste 1100 L (Collards)
- Recycling 1100 L (Collards)
- Food Waste 240 L (Biffa)
