STATUS	PLANNING	

Architectural floor plan of the existing store room and servery area. The plan shows a large rectangular area with a red hatched pattern, indicating areas to be demolished. The area is divided into a 'SERVERY' at the top and a 'STORE ROOM' at the bottom. A red hatched area on the left side is labeled 'Portion of wall to be demolished'. A red hatched area on the right side is labeled 'Portion of wall to be demolished at high level'. A red hatched area at the bottom is labeled 'Existing store room and servery to be stripped of finishes and fittings, and internal partitions demolished.' The plan also shows a staircase on the right side and a small circular feature on the left side. The plan is labeled with 'A' at the bottom left, 'B' at the bottom right, and 'C' at the bottom center.

STATUS	PLANNING		

This architectural elevation drawing shows the building's facade from a side-on perspective. The structure features horizontal siding and a series of windows, including a large multi-paned window on the upper left. A prominent entrance area is visible, consisting of a ramp and a set of stairs leading to a small platform. The drawing is rendered in a clean, line-art style with some shading to indicate depth and form.

Existing chiller on roof

Proposed air source heat pumps

Proposed air source heat pumps

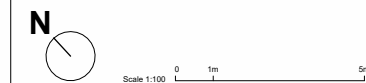

Existing roof to be retained - shown dashed for clarity

This architectural floor plan depicts the Octagon building. The central feature is a large octagonal space. Surrounding this central area are various rooms and corridors. A red rectangular structure is shown on the left side, possibly a ramp or a large entrance. The plan includes detailed line work for walls, doors, and structural elements.

Key Plan -  Air Source Heat Pump

— Existing roof to be retained - shown dashed for clarity

Existing unit to be retained - shown dashed for clarity
