Application Number: 231590

Name: P Khan

Address: 8 Calton way, Caversham.

Comment Type: Object

Comment: We are writing to object again. The plans have barely been adjusted from the previous iteration. The designs are like knotweed, invasive, unsympathetic and do not complement the area.

It's overdevelopment, and damaging to the trees.

[REDACTED]

This should once again be refused on the grounds of overdevelopment and unsympathetic to local environment.

Is the boundary even correct this time, doubt it.
