

Oaklands, Bulmershe Road, Reading, Berkshire, RG1 5RW

Prune Mixed Species (ID# G1) including T31- T52 on the TPO Map growing at the east boundary of the site, next to Bulmershe Road to the following specifications:

- Raise lower branches to 6 metres to provide clearance for vehicles. #

Remove Ash (ID# T39 on the TPO map) growing east side of the site, next to grass area and road:

- The tree is showing symptoms of Ash Dieback and due to the trees location removal is recommended.

Prune Lime (ID# T69 on the TPO Map) growing towards the north end of the site next to a footpath to the following specifications:

Reduce the height and spread of the tree by 2.5- 3 metres to maintain the size of the tree for its location.

Prune Ash (ID# T2 on the TPO Map) growing on the west boundary of the site next to the vehicle entrance to the following specifications:

- Reduce the overextended branch growing towards the building by around 3 metres to maintain clearance to the building and to reduce the likelihood of failure over the footpath.

Prune Yew (ID# T8 and T9 on the TPO Map) growing at the north east corner of the site to the following specifications:

- Raise lower branches to 2 metres to provide clearance under the tree and improve sight lines to help prevent fly tipping over the wall.

Remove Ash (ID# T71 on the TPO map) growing in the middle of the site, next to the walled fruit tree area:

- The tree is showing symptoms of Ash Dieback and due to the trees location removal is recommended.

Prune Turkey Oak (ID# T64 on the TPO Map) growing in the enclosed garden towards the south end of the site to the following specifications:

- Raise lower branches to 2 metres to provide clearance under the tree to improve maintenance.

The tree will be pruned to secondary and tertiary points in line with BS3998
