Privacy Screens for Balconies: Balconette's Solutions

Privacy screens play a crucial role in ensuring the privacy and security of your balcony. Whether you're enjoying a morning coffee or hosting a social gathering, having a well-designed privacy screen can enhance your outdoor experience. Balconette offers bespoke privacy screen solutions that not only provide privacy but also add an aesthetic touch to your balcony.

Privacy screens are often required for balconies, especially when planning approvals demand restrictions on overlooking neighboring properties. These screens serve as a barrier to limit views and maintain your privacy. Balconette understands the importance of privacy screens in balcony design and has developed two innovative systems to meet your needs.

Aerofoil Infinity Privacy Screen

Our Aerofoil Infinity Privacy Screen seamlessly integrates with your existing glass balustrade, creating a sleek and sophisticated look. It passes through the Aerofoil profile, ensuring a seamless effect that complements your regular glass balustrading. This system is designed to meet the required wind loads and building regulations, guaranteeing both safety and aesthetics.

Key Features of Aerofoil Infinity Privacy Screen:

- Glass options include satinised (opaque), clear, and tinted.
- Height limits up to 1800mm.
- Length limits for normal wind loads up to 2750mm without posts.
- Length limits for severe wind loads up to 2300mm without posts.
- Color options: **Silver anodised** (matt) or Royal Chrome anodised.

The Aerofoil Infinity Privacy Screen is a perfect choice when you want to maintain a modern and seamless appearance on your balcony while ensuring privacy.

Orbit Privacy Screen

Balconette's Orbit Privacy Screen is available in both Royal Chrome and Silver Anodised Aluminium finishes. It features 10mm satinised, toughened glass instead of regular clear or tinted glass, providing the perfect balance between privacy and style. To ensure a smooth installation process, it's essential to consider the implications of a privacy screen in advance. Balconette can assist you in the early design stages to help you make the best choices for your balcony.

Key Features of Orbit Privacy Screen:

- Length limits for normal wind loads up to 3000mm without posts.
- Length limits for severe wind loads up to 2300mm without posts.
- Height limits up to 1800mm.
- Optional extras include BalcoNano® Self-Cleaning coating.

- Color options: **Silver anodised** (matt) or Royal Chrome anodised.
- Glass options include 12mm Toughened with 10% White Screen Print (Privacy) or 12mm clear.

The Orbit Privacy Screen is designed to offer both functionality and elegance, making it an excellent choice for those who prioritize style and privacy.

Balconette is committed to providing top-notch privacy screen solutions that enhance your outdoor living experience. To get a quote or learn more about our privacy screens. Our team of experts is here to assist you in creating a balcony that offers the perfect blend of privacy, aesthetics, and functionality.

Orbit Balustrade with a 1.8m Orbit Privacy screen on the end

The Orbit privacy screens are available in Royal Chrome, Silver Anodised, RAL 7016 (Anthracite Grey), and RAL 9005 (Black) and are supplied with 12mm toughened glass.
