

Weldale Street

Revisions to Landscape Proposals

- A** Previously proposed items of formal play equipment with wetpour surfacing have been removed.
- B** New raised planters constructed in durable hardwood timber create a greater subdivision of space.
- C** New paths creating circulation routes throughout the planting areas and linking social spaces.
- D** New seating clusters, providing flexible social spaces for families and groups. Non-fixed outdoor furniture.
- E** Previous grassed area with linear bench removed, and replaced with seating clusters defined by raised planters.
- F** New outdoor table tennis table, providing recreation opportunities for adults and young families.
- G** New rounded boulders within planting, providing informal play opportunities.
- H** New polished steel gazing balls providing informal play opportunities for young children, while enhancing the overall aesthetic appearance of the courtyard.
- I** Dog-friendly area with artificial grass surfacing and timber platforms, replaces the previously proposed area of grass. The area is enclosed by low fencing.
- J** New proposed climber planting, with stainless steel support posts and stainless steel cable mesh. To improve the appearance of exposed brickwork on The Chatham.
- K** Previously proposed planting bed removed, replaced with a paved area alongside the building, with flexible (non-fixed) seating and tables
- L** New steps with handrails leading to the main courtyard area.
- M** New steps with handrail accommodating levels change (alternative 1:21 sloped access is provided).

NB: Please refer to the Courtyard B Play Strategy document for an overview of the general changes in approach to play provision in Courtyard B.

KEY

- A** Design elements removed
- A** New elements added to scheme
