Do not scale from drawings. Verify all dimensions on site prior to construction. This drawing is to be read in conjunction with all relevant documents and drawings. Report all discrepancies to MoJ immediately.
No unauthorised use, disclosure, storage or copying.

Notes
To achieve the Tribunal Court guideline for perimeter security of the restricted carpark the boundary wall is required to be raised to a minimum of 2.1m above the ground level of the land on both sides of the boundary.

Description of works:
-remove existing coping stone and remnant mortar
-lay new brick of matching type and colour
-lay existing coping stone, replacing any coping stones damaged during removal.

Proposed brick levels have been designed to the Sovereign House level survey; prior to construction spot levels taken on the neighbouring land will be required to ensure the wall height achieves 2.1 minimum
