

Block Plan - Proposed
1:500

This drawing set is to support the planning application for a 194.85 kWp system to be installed at: St Lukes Care Home, Marshland Square, Reading, RG4 8RP.		
The application being sought is a prior approval application as the solar PV system size is rated above 50kWp, and therefore not deemed as microgeneration, but all permitted development rights have been adhered to, such as maintaining a minimum of 1,000mm from the edges of the roof and ensuring that the panels will not project more than 200mm from the roof slope.
