

Sparrow Terrace Box

The single entrance hole allows the entire internal area to be available for nesting and roosting. The aperture size will vary according to the target species.

Ibstock Bat Box

Designed with the Pipistrelle Bat in mind. Available in all brick types and various sizes. A discrete home for bats with several roosting zones created inside the box. Ideal for new build and conservation work. Maintenance free as the entrance is at the bottom.

Dimensions 215 x 215 or 215 x 290mm.

Key:

- Bat Box
- Bird Box
- Hedgehog Cut-out

Hedgehog Cut-out Installation Note

Position in the corner of the screen fence to connect neighbouring gardens. Generally, there should be 2 per garden one on each side to provide a route in which the hedgehogs can travel and not get trapped.

Cut a 130mm x 130mm square hole in the bottom of the garden fence or wall - use the hedgehog highway by Timloc as a guide. Line up the hedgehog Highway by Timloc with the hole and secure into place with screws (not provided).

Refer to Elevations Plan (ref: 6555/ECO5) for suitable elevation positions for each bat and bird box.
