Dear Sally Keogh

**Ref: Reading Crown Court Reconfiguration - Planning Condition 3**

Please see below schedule of works for the replacement door detailing how the original historic stonework and fabric will be made good and protected.

This is to be read alongside drawing 256379-9573-NMA-RCC-XX-DR-A-3260 Rev P02.

- Make works area safe and secure in accordance with contractor's site management plan.
- Carefully remove existing door and frame and make good existing recess.
- Install replacement timber frame within existing opening, threshold and hang new timber door.
- Point door frame surround with burnt sand mastic to match stonework.
- Remove a portion of existing skirting board with painted steel sheet to allow the new door to fully open fully.
- Mask off existing stonework and decorate door.
- Make good internal finishes and decorate as required.

I hope that the above information is satisfactory, but, if you have any further questions, please do not hesitate to contact me.

Yours sincerely,

Anca Gujba  
Design Manager
