Regarding the trees opposite the site 58 Kings Road, Reading, RG1 3AA

‘No mention is made regarding how trees will be protected in respect of the location for storage and plant deliveries’

The trees opposite the site (located on Crane Wharf) are on land not owned by the client and therefore we cannot implement fencing for this., although there is already boundary fencing there (please see photo below).

You can also see that the existing through road is wide enough to facilitate the use of delivery vehicles reversing, unloading and leaving; vehicles will not be required to turn.

The Courtyard, Edinburgh Road, Reading Berkshire RG30 2UA

You can see in the next photo that the through road is already in use and gauge the scale of the space available which provides ample room for delivery vehicles to implement their designated route without, we believe, posing a risk to the trees.
