

Burns, Matthew

Subject: FW: 231266 136-137 Friar St

Hi Matt

So sorry for the delay.

I have reviewed their response and am satisfied with everything that they propose. They are proposing increase noise attenuation to the rear than that proposed therefore the approval would need to include provision for the development to be in accordance with the addendum. The proposal is for the plant noise to be dealt with by condition, which I am satisfied with.
