

All dimensions to be checked on site and any discrepancies to be reported before work commences.

This architectural elevation drawing illustrates the proposed changes to the front facade of a two-story building. The building features a grey gabled roof with three dormer windows. The ground floor has a central entrance with a wooden door and two large display windows on either side. The first floor has three windows. The proposed changes are indicated by red text and arrows:

- New window:** Points to a new window unit to be installed in the center of the first floor.
- New Sing board for each front shop with external illumination:** Points to a new horizontal board to be installed below the first-floor windows.
- Front elevation change black finish colour for light grey colour:** Points to the new finish for the ground floor facade.
- NEW SHOP:** Text labels for the new shopfronts on the ground floor.

The drawing also shows the existing building structure, including the roof, dormer windows, and the adjacent building to the right.
