Date: 10/09/2025

Revision: A

Date Revised: 09/01/2026

Submission of details for the **Discharge of Planning Condition no. 5** with respect to the external playground works for THAMESIDE PRIMARY SCHOOL, HARLEY ROAD, CAVERSHAM, READING, RG4 8DB, with **application no. PL/25/0342**, copied below for ease of reference.

5. Prior to first use of the development hereby approved, details indicating the positions, design, materials and type of three metre high security fencing to be erected shall be submitted to and approved in writing by the Local Planning Authority. No boundary treatment shall be provided otherwise than in accordance with the approved details.

REASON: In the interests of the character and appearance of the area. In accordance with Policy CC7 and EN12 of the Reading Borough Local Plan 2019.

The fence shall be constructed as:

Duo 8 Sports Super Rebound Mesh Fencing

Colour: RAL 6005 [Green]

Height: 3m high

Total Length: 36m

Access: 1x 1.2m wide Single Gate

Gate Spec: includes Slam Plate & rubber bump stop and manual Lock slide latch

Integrated Goal: 1x Holland Goal Sports Panel with Basketball Hoop and Backboard

Hoop Spec: 2.5m High

Design: includes Finger trap clamp bars

Note following Assistant Natural Environment Officer's comments on 7th January 2026, as per the revised AMS "TPS Arboricultural dev report to BS5837 2012_Woods_Rev 2":

The posts for the boundary fence will require excavation, where these are within the trees RPA they must be excavated using hand tools and lined with heavy duty polythene sealed with duct tape to prevent concrete contact and carried out in accordance with the Arboricultural Development Report.

Manufacturer information:

The Super Rebound 8 fencing system uses twin horizontal 8mm wires, and the Rebound 6 system uses twin horizontal 6mm wires. The lower 1.2 metres of the fence has a 50mm x 66.6mm mesh pattern.

With fixings, every 200mm to the lower, high impact areas of the fencing and rubber inserts at each fixing, rattle is virtually eliminated during play. In addition, clamp bars covering panel ends to ensure a safe playing surface with no sharp edges.

Available in heights up to 5070mm, it is ideal for sports centres, MUGAs, schools, sports grounds, and other sports sites. Super Rebound also conforms to BS 1722-14 for open mesh steel wire mesh panel fencing.
