

Indicative Gate Design

New estate fencing, together with matching double entrance gates, is proposed at the access to the private drive. The design and detailing shall reflect traditional estate boundary treatments appropriate to the character of the listed building, providing enhanced security for residents while remaining visually permeable and avoiding harm to the setting of the historic building. The gates shall incorporate an electric entry system to provide controlled access. Gate operation shall be arranged to open inwards into the site, ensuring no obstruction or impact on the shared access road.

Scale: 1 : 50	4m	8m	12m	16m	20m
