Description

The Recycle Wood Shelter is made of sustainable wood exterior, which makes it a perfect choice for those seeking an environmentally sustainable option or an aesthetic which blends with nature. The shelter is constructed from mild steel and is with bolt-down fixing. The cycle shelter comes with cycle parking in the form of galvanised bike stands. It has no crawl-under perimeter and no climb-end frames for added security. Our client feedback from our Royal customers who purchased this shed was that they were most pleased with the gated shelters.

Options:

The shelter is available in a galvanised, polyester powder-coated RAL code colour finish or both – galvanised and powder-coated. We offer an option to add an LED solar-powered light and swing or sliding gates for extra security. If you select to install gates, you can further secure your bicycle shelter by adding a locking security system; you can choose from a swipe card system, lock and keys and coded padlock. For even more protection, we offer roofs as an add-on. You can choose between anti-vandal 4mm polycarbonate or corrugated steel options.

Specification:

- Sustainable Wood clad panels
- Cycle parking bike stands with galvanised finish.
- Includes assembly bolts, expanding foundation bolts for concrete plinth and arrangement drawing for assembly
- No climb end frames with anti-vandal panels
- No crawl under perimeter
- Hot dipped galvanised or polyester powder coated to BS EN ISO 1461:1999 standard finish
- Cycle Shelter comes with adjustable overground fixing feet
- Single units can be placed alongside or opposite each other to form larger cycle storage areas.
- Optional steel mesh swing gates come with latch ready and padlock. 2x swing gates per cycle shelter.
- This bike shelter can help contribute towards gaining ENE8 Cycle storage credits, when used in the appropriate situation, under the Code for Sustainable Homes

Size: 10 Bike Shed BSC2(2115): Length 4100mm Height 2200mm Width 2100mm
