Dear Zeeshan,

With reference to your recent enquiry, please find our quotation as follows:

For the supply of **Qty 1. Traditional Victorian Awning**, with a projection of 3000mm. Awning manufactured entirely in our London workshop with all components individually hand crafted. Components including:

Awning box encasement and front lath constructed from the finest Red Grandis timber with finishing available in any paint or wood stain colour (awnings over 5m wide are liable to deflection). The box is manufactured with a pitched top to prevent the sitting of water; the lath is routed with a unique shadow detail on the front face and with a concealed drip rail on the reverse.

Cloth canvas cover in Acrylic 300g technical fabric with solution dyed fibres and Teflon coating for enhanced resilience to weathering. Twin sewn seams are spaced at 120cm across the width to achieve the optimum tension across the cover. The fabric is available in a wide range of plain colours and stripes. Awning complete with straight 200mm valance and integrated colour coded powdercoated valance rail.

Steel arms individually and entirely fabricated in-house by hand. We are the only manufacturer to produce arms without moulded parts or kit components, making their strength unparalleled. All our metalwork is completed with a powder-coated finish for enhanced durability (a choice of any RAL colour is available). Arms to include sliding brackets with unique discreet fixings to extend the projection.

Awning to be manually operated with traditional manual sprung roller and timber retracting pole.

**£3,122.20 + VAT**

**Optional Extras:**

**£187.00 + VAT** – Valance branding up to 30 characters

**£340.00 + VAT** – Fitters survey

**NB – Costs as above inclusive of Exworks discount**

For more information regarding the components and construction method of the awning please do not hesitate to contact us or refer to the brochure available from the following link [VAC - Victorian Awning Brochure](#)

**Additional Information:**

This quotation is valid for 3 months.

Our terms of business are 50% deposit prior to manufacture, balance to be paid prior to installation.

**Terms & Conditions**

Exworks – to be collected from our factory in London.

Any remedial works required as a result of awning removal, including the filling, covering, or repair of holes in the shopfront, are excluded from Victorian Awnings' scope of works and shall be undertaken by the client.

Completion will be approximately 8-10 weeks from sign off of all specifications. Due to high demand all lead times are subject to change daily. For the latest lead times on your product please check with your consultant before making your order.

Yours sincerely,

**Drew Bentley**
