

Design and access statement

8&10 Church Street, RG4 8DZ (10) & RG4 8AT (8)

A Design and access statement appears to be compulsory for Listed building consent – however since we only intend to repair and complete maintenance to the existing roof we don't think this section is relevant....

The building is currently used as an office for Gardiner's Homecare Limited and will continue to be used in this way until the end of their lease after which we may seek change of use to residential which is much better suited to this building.

Access through existing entrance:
