Dear Rebecca

Lizard Landscape Design and Ecology
Land to the rear of 209 – 219 Henley Road, Caversham, Reading

Thank you for approaching our practice to provide a LEMP addendum for the above site.

We understand that an addendum to the approved Landscape and Ecological Management Plan (LEMP) is required to support the updated development proposals and confirm the status of the previously approved ecological enhancement measures.

Landscape and Ecological Management Plan - Addendum

The LEMP Addendum has been prepared to confirm that the ecological enhancement measures set out in LLD1986-LAN-REP-001-01 remain unchanged.

The approved ecological enhancements, including habitat improvements, species enhancements, and associated management requirements, will remain as previously approved and will continue to be implemented as part of the development proposals.

The updated proposals do not result in any changes to the ecological enhancement strategy, and the previously approved LEMP provisions remain appropriate for the revised development. The addendum would provide confirmation for submission to the Local Planning Authority in support of the updated planning information.

Please contact me should you wish to discuss or review this further. We look forward to hearing from you.

Yours sincerely,

Linford Fernando
