

I, Emma Rapley of 8 Selbourne Walk Tadley Basingstoke Hampshire RG26 4JU DO SOLEMNLY AND SINCERELY DECLARE as follows:

1. I confirm I am the manager of Park Day Nursery at 8 College Road, Reading (the Nursery). I commenced employment as deputy manager of the Nursery in January 2016 working 40 hours per week. I was promoted to the position of nursery manager in February 2017 and remain in post to date.
2. As manager of the Nursery my responsibilities are to oversee the entire daily operation of the nursery and pre-school. I have responsibility for the safeguarding of the children in our care. I oversee the delivery of our teaching curriculum for our children. I ensure that parents are informed as to their child's development and progress. I work with the directors to ensure that the nursery and pre-school operate at capacity and that vacancy levels are kept to a minimum. I consider the requirements of the Ofsted inspection grade descriptors and endeavor to make sure that we deliver the highest level of teaching and care that we can offer. We have been graded as "Outstanding" by Ofsted at our last two inspection visits. These Outstanding Ofsted judgements help to ensure that we always have demand for places from parents.
3. I confirm that I must know the number of children at the Nursery every day, and a breakdown of how many children are in each age group room. Without this information I would be unable to guarantee a safe evacuation of the nursery in that eventuality being required. Additionally knowing the number of children planned to attend and actually attending allows me to ensure that the relevant number of qualified Early Years practitioners and teachers required to maintain Ofsted required ratios of adult to child are achieved.

4. As confirmed in our Ofsted reports (attached at exhibit 1) the Nursery and Pre-School combined can accept up to 90 children per day. The Early Years Foundation Stage document stipulates a minimum space per child with this space to vary depending on the age of the child. Older children are defined as needing smaller amounts of useable space each whilst younger children counter-intuitively actually require more space as stipulated in the Early Years Foundation Stage Statutory document. Ofsted on inspection days would have considered if we had sufficient space on that day for the number of children we had attending and then if they were satisfied on this point, they would identify the number in their report.
5. I confirm that due to the high demand for places at the Nursery and Pre-School, we have consistently accepted 51 or more children per day since before August 2016. We were always open to having more than 50 children per day and staffed with the understanding that we intended to provide childcare to as many parents as required childcare up to our internal space limitation which would have resulted in 90.
6. Exhibit 2 includes a breakdown of the numbers of children attending the Nursery each day since August 2016. Whilst I have not personally produced the heat map showing the number of children attending per day over the ten-year rolling period shown, I recognize the numbers as being consistent with what was actually achieved from my own recollections. It is my understanding that the data source for the heat map was our own internal nursery specific software (Parenta). If asked to produce this data myself, I would have accessed the nursery software in the way I understand has been done to arrive at accurate attendance numbers.

7. It is evident that there are only a handful of instances in only some years across the past 10 where the number of children dropped below 51 per day. This was sometimes during school holidays when the Nursery is open, but parents did not require childcare, or during transition periods where some children left for school and others joined. There is typically slightly reduced demand around this time of year, and this is in line with the usual pattern of attendance we would expect.
8. I confirm that the number of places available (i.e. 90) remained the same during any periods where there was a slight reduction in the number of children actually attending.

AND I make this solemn declaration conscientiously believing the same to be true and by virtue of the Statutory Declarations Act 1835.

DECLARED by)

~~XXXXXXXXXX~~
