Date: 21st September 2026

50 Mount Pleasant, Reading, Berkshire, RG12TF

Dear Goda

We have reviewed the proposed planning drawings for the replacement rear extension and compared these with the previously issued Structural Engineer's Report.

The proposed works remain within the scope of the previously assessed structural alterations. The changes to the form and arrangement of the rear extension do not materially alter the structural principles or requirements identified within the original Structural Engineer's Report.

Accordingly, the existing Structural Engineer's Report remains applicable to the proposed works, and a new Structural Engineer's Report is not required in support of this planning application.

Detailed structural design and calculations will be provided as required at the Building Regulations / construction stage.

Yours sincerely,

Abdul Rehman
CEng, MIStructE

Managing Director
